News Release

For Immediate Release: September 7, 2017

Water shutdown scheduled for Kilauea area on September 13

KILAUEA – The Department of Water (DOW) announces an 8-hour water shutdown scheduled for Kilauea customers located on Kauapea Road, Mihi Road, Makana Ano Place, Pali Momi Place, Iwalani Lane, Kahili Quarry Road, Titcomb Street, Kanikele Street, including customers located on private connecting roads and on a portion of Kilauea Road, from Keneke Street to the Kilauea Lighthouse. Water will be turned off on Wednesday, September 13, 2017 from 9 p.m. to 5 a.m., September 14, 2017, weather permitting.

The overnight water shutdown will allow private contractor, Kaiwa Construction, Inc. to tie-in water lines to the existing system.

In preparation for the water shutdown, affected customers are advised to take the following steps:

- Store enough water to meet your needs during the overnight shutdown.
- Notify family, friends and neighbors that may be affected by the shutdown.
- Those with faulty water heaters should ensure that water heaters do not empty during the shutdown.
- After the water main is turned back on, air and or existing sediment may be mixed into the water causing it to appear white or discolored. This is normal, and if it occurs, customers may flush water out through an outside hose bib until the water is clear.
- To monitor updates online, visit www.facebook.com/KauaiDOW.

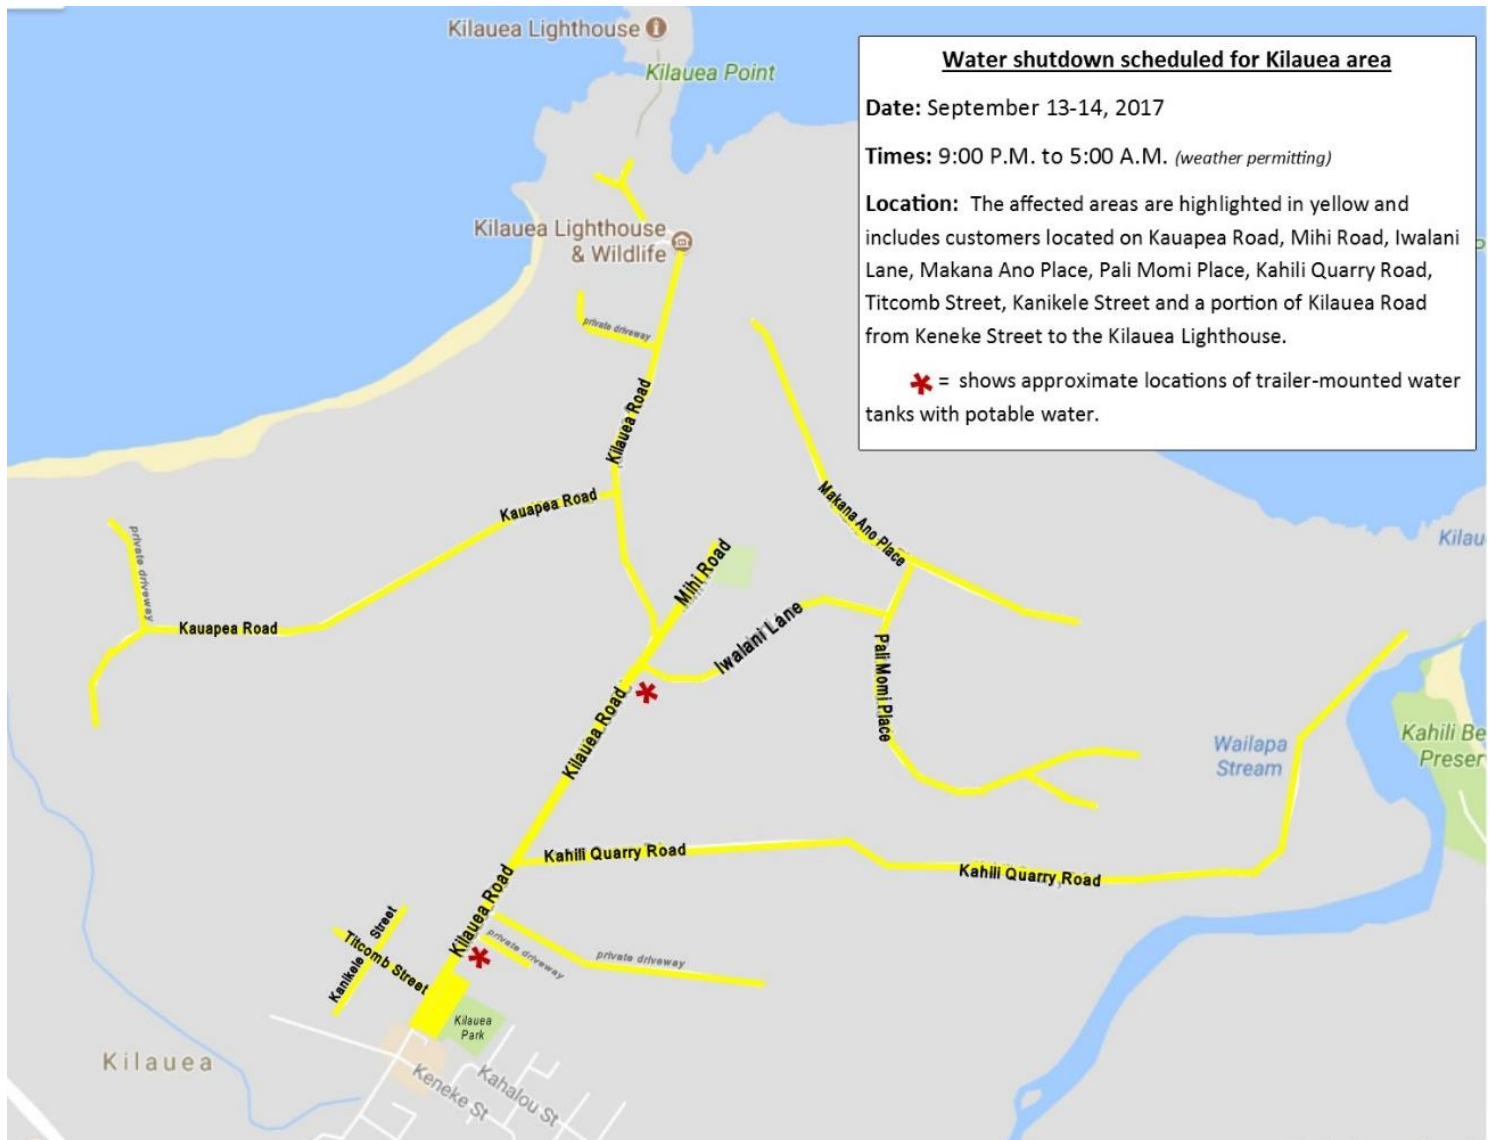

The DOW will provide 2 trailer-mounted water tanks with potable water for essential water needs during the scheduled shutdown. The trailer-mounted water tanks will be located on Kilauea Road; one near Kilauea Park and the other will be located near Iwalani Lane. Customers will need to bring their own water containers.

An electronic message board will be posted in the affected area to notify and remind customers of the shutdown. A Connect CTY message will also be sent to affected customers via phone call, text or email. To sign up for this service, please visit www.kauai.gov.

To view a detailed map of the affected areas visit www.kauaiwater.org or visit DOW's Lihue office. For more information, please call the Department of Water at 245-5461.

(Please see the following page for a map of the affected area.)
